

linioj-forigilo

Features

This software is a tool to delete lines in a text file.

Usage

1. Press the Open button and select the file.
2. Enter the number of lines to be deleted.
This software will delete lines from "From" value to "To" value.
3. Select the text encoding you want to change from the "Convert to" pull-down menu.
If you don't want to change it, select "Keep Source".
4. Click the Delete button to delete the specified line and save the file with "_forigita" appended to the original file name.
